Intima Brakes were first introduced to Australia back in 2008 to fill the void in the car enthusiast market providing performance brake pads for performance cars at an affordable price. Since its humble beginnings, Intima Brakes now have three distinct ranges in brake pads for many makes and models.

Brake Pad Application Guide - Intima Brakes Australia

Apollo brake calipers utilise a 2-piece bolted design, incorporating high tensile 12.9 grade steel bolts for reinforcement of the caliper bridge section. Computer FEA analysis shows that the utilisation of high-tensile steel bolts to reinforce the bridge brings significant improvements in caliper stiffness compared to a mono-block design.

Brakes Selector Chart - EBC Brakes

Floating Brake Rotors Additional Info. Fully floating 2-piece rotor that allows outer ring to expand freely in response to heat. This reduces stress which in turn extends rotor life and reduces the tendency for rotor cracking during extreme use.
