Even though the SUS ranges from 0 to 100, these scaled scores are not a percentage. A score of a 68 is 68% of the maximum score, but it falls right at the 50th percentile. It's best to express the raw number as a score and, when wanting to express it as a percentage, convert the raw score to a percentile by comparing

## Read Free Determining What Individual Sus Scores Mean Adding An

The first step in scoring a SUS is to determine each item's score contribution, which will range from 0 (a poor experience) to 4 (a good experience). For positively-worded items (odd numbers), the score contribution is the scale position minus 1 (for example, a rating of 4 on an odd-numbered item would have a score contribution of 3).
